Colombiano

ABOUT ME

As a technology enthusiast with a strong determination to find the perfect job position, my goal is to refine my skills and delve into a specific sector. I stand out for my innate ability to acquire knowledge swiftly and efficiently, enabling me to adapt quickly to any work environment. With a solid foundation in my technical expertise, I seek to tackle stimulating challenges that allow me to contribute significantly and grow professionally.

EDUCATION

**UNIVERSIDAD
NACIONAL ABIERTA
Y A DISTANCIA -
UNAD
2025**

- **Systems Engineer** with academic excellence, with a GPA above 4.8/5, specialized in technological development.
- **Specialization in Mobile Computing Deepening Diploma.**

**ONLINE
PLATFORMS**

- Accredited with multiple certifications in development and programming through the Platzi platform.
- I studied in government programs such as MinTIC and Talento Tech, as well as some programs at SENA, all related to development.

WORK EXPERIENCE

...

I have been involved in various development projects for over 4 years, both in academic and corporate environments, working with small teams. Now, I am seeking my first professional job opportunity.
